The following is an examiner's statement of reasons for allowance: The cited prior art, Glaser and Wiser, teach methods of recording and watermarking audio content. However, the cited prior art fails to teach or suggest increasing the sample rate and resolution of an audio file and inserting a first data block into the added resolution and a second data block into the added samples to create a watermark. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
